

Get International Certificate From Neurocritical Care Society USA

What to do in the critical first Hours of a Neurological Emergency ?

The Emergency Neurological Life Support (ENLS) is designed to help the healthcare professionals improve patient care and outcomes during the critical first hours of a patient's neurological emergency. This will reduce delays and improve patients outcomes.

ENLS BENEFITS : Advanced knowledge, improved patient care and outcomes. Doctors, critical care nurses, and other professionals who treat neurological emergencies benefit from ENLS's in-depth presentations of 13 critical topics.

All participants will be provided an online ENLS account access code providing access to all course material.

ENLS Certificate : Once the participant has passed the online exam, they can automatically download the certificate from their ENLS account.

For whom : Emergency department– Nursing staff, Residents, Physicians-Residents, Neurology- Nursing staff, Residents, Anesthesiology-staff, Residents, Neurocritical care - Nursing staff, Neurosurgery-staff, ICU – Nursing staff, Residents, Intensivist.

The participants will gain knowledge of the latest management techniques in the most frequently occurring neurological emergencies, where seconds count. MMC Credit points applied

07th January 2019

Venue - 8th Floor, Saud Bahawan Auditorium, Phase I,
 LMMF's Deenanath Mangeshkar Hospital & Research Centre,
 Erandawane, Near Mhatre Bridge, Pune 411004 .
